### **Contest Description:**

The contest was organized mainly to promote the growth of the slalom skateboarding movement in Italy. In the three last years around in Italy, thanks to the initiative of Eskate many young athletes joined our sport; As you can understand our desire is to become the 'Florence appointment of a classic European event and organize a competition level also to enable young people to attend high-level performance and continue to improve results.

Thereby requiring the Prime status in order to have a good event and attract competitors from Europe. We believe that features offered (prizemoney, lot of facilities and the quality spot) are largely at the status request.

We also think our country has a long history of events, people and champions, and it may be interesting for the European friends to take part in an event like this.

Fortunately we had confirmation of the sponsors of the above events and many others have been added , so we can offer gadgets and high-level hospitality.

Finally, we think it could be nice for guests to spend a weekend in Florence, shopping on Saturday and Sunday's race!
